**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 23 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Brenner et al ('200).

The device as claimed is disclosed by Brenner et al with a thermally stable material 24 located within the metrology loop between the probe head and the arm of the coordinate positioning apparatus and partially enclosing the fixed structure of the probe head.

***Allowable Subject Matter***

3. Claims 1-22 are allowed.

4. Claim 25 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
